DRB Toolkit
Disaster Resistant Business

RESILIENCE SOLUTIONS

The DRB Toolkit® is an interactive application designed to enable businesses to build a comprehensive disaster plan and business continuity program.

No previous experience needed to use!

The Disaster Resistant Business (DRB) Toolkit is your solution for unplanned disruptions – regardless whether they are natural, man-made; large or small - each has the potential to create catestrophic losses for your business. The DRB Toolkit® enables you to minimize your risk through the process of creating or refining your disaster plan, training employees, and exercising your business' readiness against all hazards. The DRB Toolkit® is your path to true Business Continuity.

The Toolkit was developed by the DRB Toolkit® Workgroup, a 501(c)(3) non-profit full of experts from government, the private sector, and non-profits, to meet the following objectives:

• Improve economic resiliency by reducing downtime.
• Design easy-to-use tools for limited-resource users.
• Create user friendly applications.
• Build a process, easily maintained and enhanced.
• Strengthen partnerships with public & private sectors.

An IRS Certified 501(c)(3) Non-Profit

The Best Practices in Business Continuity for your economic resilience.

DO YOU KNOW HOW TO PRIORITIZE YOUR OPERATIONS AFTER A DISRUPTION? WILL YOUR DOORS REMAIN OPEN?

Any unplanned disruption can turn into a disaster if you are unprepared. Plan Now.

YOU are the expert in your business. How prepared is your organization to respond and recover after days without power or water? Every day businesses close because they weren't. Unplanned disruptions are…unplanned, but by using the DRB Toolkit® you will equipped to respond. Use it to build an all-hazards plan, train employees, and prepare for what may financially impact you.

RESILIENCE SOLUTIONS

• STEP-BY-STEP GUIDED PROCESS.

• EASY TO NAVIGATE DESIGN.

• HELPFUL CHAPTER VIDEOS.

• ENTER DATA, AUTOSAVE & PRINT.

• IMMEDIATE PROGRESS DISPLAY.

customizable solutions for your business needs

APPLICATION DESIGN

Designed after the TurboTax®-model, the DRB Toolkit® is intended for beginner and advanced business preparedness planners alike. Each chapter leads off with an informational video that describes what you will be doing in that part of the Toolkit and why certain information is important to your business. When you open the Toolkit for the first time a "Welcome Video" will get you started. At the end of each video, you will be instructed how to begin the chapter. It is that easy!

ENTERPRISE MANAGEMENT

Designed for small businesses, yet all-sizes can benefit from the DRB Toolkit® process. We have both web-based and downloadable software versions to facilitate the development of a disaster plan. Some companies have multiple sites and try to cut time by creating a plan as "one-size-fits-all". CAUTION: Details, people, layout, etc. will vary at every location. The plan development process is critical, so each site must develop a plan with specific details. Afterward, plan similarities can be shared.

CUSTOM SOLUTIONS

The DRB Toolkit® is 100% customizable to fit your company and guides you through the critical plan development process that you can modify for your specific business needs. It's YOUR plan.

WEB SOLUTIONS

In addition to all-inclusive applications, the DRB Toolkit®, website, and partnerships will continually bring in value-added tools, materials, lessons, and forums to advance each business' readiness – see our resilience example in Turkey!

BUSINESS SOLUTIONS

Time and money are too valuable to waste. The DRB Toolkit® is designed to simplify your planning by pulling in the best practices to your process – it is one-stop planning all in one tool.

WE'VE BEEN WHERE YOU ARE: BOTH BEGINNING AND ENHANCING DISASTER READINESS. HOW CAN WE HELP YOU? VISIT www.DRBToolkit.org
